INTRODUCTION

Publishing a directory of real estate listings is a work of large scope and one that promises far reaching results. This issue we have had the assistance of fifty real estate firms. For our succeeding issues we have the assurance of the co-operation of one hundred and fifty firms.

In this directory all the plan numbers and subdivisions of Saskatoon property are indexed alphabetically and then on the page shown in the index all the listings we have in that plan numbers are given arranged according to lot and block number. One piece of property only appears once, but key letters after that property show, which firms handle it, as all the firms who have given us listings are alphabetically indexed with their key letter following the name of their firm.

It is our aim to have a directory that will give the asking price of every piece of property in Saskatoon, arranged so that any one can conveniently turn to the property they are interested in and find the asking price and the real estate firms that handle it. We will keep the directory up to date by correcting and publishing monthly, and in case conditions warrant so doing we will correct and publish more often.

For this issue we were unable to secure listings in some of the plan numbers where there is very little activity but in our succeeding issues with the co-operation of a greater number of real estate firms practically every piece of property in Saskatoon will be listed.

SASKATOON

When a Country develops in such a phenomenal manner as has Western Canada in the past ten years, and when the business and distributing centres are being transformed from mere stopping places on the map to important factors in the commerce of a nation in a period that is comparatively a mere instant in the world's progress, it is the natural consequence that there should be increases in the values of property which seem in many cases to be almost incredible. Such has been the case in Saskatoon, and so naturally does the rapid increase in values go hand in hand with the business and commercial development, that to-day we find in this City, as in others in the West, that the Real Estate business has become involved with, until it has from a financial standpoint become a part of what the more conservative refer to as legitimate business. In other words at the present time what effects realty values will effect largely through them nearly all lines of wholesale and retail trade.

Saskatoon—Continued

This may or may not be the best thing for the permanent development of the West, but it is a condition of to-day and a state of affairs that could by no apparent means have been avoided with the progress that the West has seen. With the future of this great country assured, with the great basic industry of grain production only in its swaddling clothes, the values of real estate will continue to advance although naturally, not with the rapidity that has been seen except in some cases, and no Western City has a future that appears to be more optimistic than that of Saskatoon. The danger of investing in Western Real Estate to-day would appear to be that inflated values may be paid, prices beyond the market, for properties that in many cases lie too far out to promise a profit for some years. What the purchasing public would appear to need is information and any project which proposes to give sane figures based upon current market values and showing also other figures which may be used for comparison, would appear to be working in the direction of aiding stability to Real Estate in Western Canada.

Facts Relative to the City's Development

The very word Saskatoon to-day signifies a "Wonder City," due to the fact that but nine years ago a prairie town only 118 people actually composed the inhabitants, whilst today 25,000 people grace the city. It has passed from the condition of a crude prairie town to that of a "City Beautiful," where lives an army of trained and disciplined men; men who know and who can think; men who can perceive and anticipate; whose minds are accustomed to difficult tasks, whose faculties are instruments of precision and whose judgements are steadied by knowledge. These men are imbued with "Civic Pride," "Business Acumen" and "Enterprise," and it is within their power, acting in unison, to shape the general policies of civic, industrial and commercial affairs, that the interests of every character will be placed on a stable basis.

For the benefit of our subscribers we give the following statistics relating to the city which are worth knowing.

The foregoing Officers of the League are in themselves sufficient assurance of the business methods and policies of the organization, but in addition it is recognized that every progressive Citizen of Saskatoon possessing genuine concern for the welfare

and advancement of the City recognizes the imperative necessity for a comprehensive and effective public policy whereby the interests of the public may be properly protected.

There is no more admirable quality of Citizenship than that Spirit of "Civic Pride" which impels a man to give hearty support to such lines of endeavor as men, for their object, the accomplishment of something for the common good of the City.

It is necessary for Saskatoon to maintain a broad gauge and broad public policy that will be in keeping with the dignity and aspirations of a City recognized and now making with enterprise, energetic and progressive movements. With this policy ever uppermost in the minds of "Men who Do Things" and a cultivation of our Contributing and Distributing Zones, Saskatoon will be the very "Hub" of Saskatchewan's Industrial Wheel.

C. P. R. Transcona

WINNIPEG, MANITOBA

Investors who buy our property today stand to make much better returns than early buyers in Saskatoon did. They made thousands of Dollars on little investments, but C P R Transcona is bound to show much bigger increase in value than Saskatoon ever did.

NOTE THIS. — 5,000 men will be actually employed in the big railway yards, round houses, and shops of the C P R and manufacturing plants in Transcona. This means over 20,000 population in two years' time.

The C P R are now spending \$2,000,000 in yard trackage and elevators. It is to be the largest freight terminal in the world.

Prices are \$4 to \$15 a foot now. We believe some of this property will sell for \$200 per foot within two years' time.

Let us send you full particulars about C. P. R. TRANSCONA as an investment.

Lots 25 foot frontage. Price
\$100, \$150, \$200 and upwards.
